

Commercial Vacuums by Tacony Corporation

CLEANMAX™

Where durability and affordability meet. The CleanMax Nitro upright is jam-packed with long-lasting metal components, all designed to ensure dependable service day after day. Plus, this machine features a 40 foot, 3-wire cord with a pigtail for quick and easy cord replacement. The Nitro's powerful motor provides one-pass cleaning on carpets and the Quick Draw on-board tools make quick work of baseboards and other above-floor cleaning.

- 10 AMP Motor
- Clean Air System
- HEPA Media Post Filter

*Motor only

Metal Brushroll

Highly durable and features replaceable brushstrips

HEPA FILTER

Provides HEPA media post filtration

CLEAN AIR DESIGN

1. Dirt is pulled in and drawn through the vacuum bag.
2. Dirty air is forced through the filter.
3. Only filtered air passes through the fan and motor system and through the HEPA Media filter back into the room.
4. The sealed vacuum traps in dirt and odors.

Quick Draw Tools

Puts the power of the vacuum at your fingertips for above-floor and hard-to-reach area cleaning.
